Who Are We?

Since 2004, BIOptimizers® has been formulating breakthrough digestive, nutritional, and cognitive supplements designed to optimize humans; a process referred to as BIOptimization. CEO Matt Gallant and President/Director of Education, Wade Lightheart are driven by an obsession to build the best-in-class formulas on the planet, bringing more than 30 years of fitness and health-related experience to the supplement industry.

BIOptimizers has trademarked six U.S. breakthrough formulas including industry standouts MassZymes®, P3-OM®, and Mushroom Breakthrough™. In 2021 BIOptimizers acquired Nootopia, a revolutionary line of nutraceuticals created by webnutrients.com and will expand its nutrition category in 2025 with a dozen new formulas.

With endorsements from the World's Top BIOhackers and Health Experts, and hundreds of thousands of loyal online customers, BIOptimizers Founders Matt Gallant and Wade Lightheart are proud to introduce the company's full suite of supplements to the retail market for the first time.

Gluten Guardian

Gluten Digestive Enzymes

- Formulated to support the digestion of gluten and casein, which can be difficult for many people to digest
- Contains a blend of six plant-based proteolytic enzymes, including Peptidase DPP-IV, designed to help break down gluten
- Includes additional enzymes for breaking down complex carbohydrates and four enzymes specifically for efficient lipid (fat) digestion
- Even with a gluten-free diet, many restaurants or kitchens don't fully separate gluten-containing foods. This means there's always a risk of accidental gluten exposure when eating out.
