

2022 PRODUCT CATALOG

ABOUT US

Since 2004, BiOptimizers has offered premium formulas to support optimal digestion, cognition, cellular metabolism, and athletic performance. It all began with MassZymes, a proteolytic enzyme formula designed specifically to help athletes increase muscle mass and shorten recovery time. The success of MassZymes catapulted BiOptimizers to become one of the fastest growing dietary supplement companies in the United States. In fact, BiOptimizers was just named #245 on the 2022 Inc. 5000 list of fastest-growing private companies in America.

As our success has grown, so too has our passion for creating innovative, efficacious formulas rooted in science. We partnered with Burch University in Sarajevo, endeavoring to convene a team of experts and design a million-dollar, state-of-the-art laboratory. Along the way, BiOptimizers cemented its reputation as a pioneer within the field of nutraceutical innovation with cutting-edge formulas like Magnesium Breakthrough, P3-OM, and kApex.

Our goal with every formula is to create best-in-class products. That's why we source only the highest quality ingredients from trusted vendors, employ the strictest manufacturing practices, and require every batch of finished product to pass rigorous testing for purity and potency. And that's just the beginning. We then optimize every formula by doing hundreds of experiments in our lab to create breakthrough synergy.

No matter where your patients are on their path to wellness, BiOptimizers formulas are designed with their needs in mind. We are honored to be a part of that healthcare journey.

OUR COMMITMENT TO EFFICACY + QUALITY

At BiOptimizers, we take our responsibility to healthcare practitioners and their patients seriously. That's why efficacy and quality are our top priorities, above all else.

The process of creating science-based, efficacious formulas begins in the laboratory. Our leading PhD scientists and formulators, working out of a million-dollar lab in partnership with Burch University, oversee hundreds of experiments involving every ingredient and formula to ensure peak efficacy. As new research emerges and more bioavailable ingredients are developed, our formulas undergo a continual process of evaluation and improvement. Through this iterative process, we guarantee BiOptimizers formulas remain best-in-class within the field of dietary supplement innovation.

Our pursuit of excellence doesn't end there. To ensure high quality formulas, we insist on sourcing only premium ingredients from vendors who share our commitment to quality, sustainability, and transparency. We've established relationships with trusted vendors across the globe to ensure we have access to the highest quality ingredients.

Our products are manufactured in cGMP-certified facilities within the U.S. following strict standards that govern raw material testing, in-process validation, finished good testing, and product labeling. Whether mixing bulk materials, encapsulating powdered blends, verifying labels or bottling finished products, we pride ourselves on exceeding the highest industry standards.

It is this unwavering dedication to efficacy and quality that's led health-seekers and their practitioners around the world to rely on BiOptimizers to achieve optimal health.

HOW TO ORDER

Our commitment to science, quality, and transparency makes BiOptimizers a natural fit for practitioners seeking effective, high-quality solutions for their patients.

In recent years, the shifting healthcare landscape has allowed practitioners to transform their practices to improve accessibility, affordability and patient care. That's why we offer several ways for practitioners to partner with BiOptimizers. Whether you dispense online or in-office, whether you see patients in-person or virtually—we've got a solution for you.

WHOLESALE PROGRAM

- For practitioners who dispense in-office or through their own website
- You buy products at wholesale pricing and then set your own pricing for patients

AFFILIATE PROGRAM

- For practitioners who do not dispense in-office or through their own website (due to space limitations, convenience, insufficient staffing, state/license restrictions, etc.)
- You are assigned a unique practitioner affiliate code, which you can provide to patients to use when purchasing directly with BiOptimizers to receive up to 10% off retail pricing
- You can opt to claim a commission for every purchase made by your patients (customize your program to receive 5%, 10% or 15% commission)
- You receive monthly reports showing which patients ordered and what they purchased

To learn more about setting up a practitioner wholesale or affiliate account, please email us at hcpinfo@bioptimizers.com.

At this time, we are not available through FullScript. If you are interested in purchasing our products through FullScript, please contact them directly at (866) 807-3828 to request they offer BiOptimizers products.

VEGZYMES

- 17 plant-based digestive enzymes including proteases, lipases and cellulases, plus betaine HCl and InnoSlim®, an herbal metabolism support blend*
- Supports digestion and absorption of fibrous plant foods that can be challenging to breakdown, helping to reduce gas and bloating*

Directions: Take 3-5 capsules with each meal. Store in a cool/dry location.

AstraZyme™ is a registered trademark of Enzymology Research Center, Inc.
InnoSlim® is a registered trademark of Nuliv Science.

Caution: Keep out of reach of children. Do not use if ulcer or gastritis are present. As with any product, discontinue immediately if adverse effects occur. Please consult a physician before beginning any new supplement, diet, training program, or if you're undergoing treatment of a medical condition.

Supplement Facts

Serving Size: 2 Capsules		
Servings Per Container: 60		
	Amount Per Serving	%DV
Enzyme Blend	68.58 mg	**
Amylase	7,500 SKB	**
Beta Glucanase	100 BCU	**
Pectinase S	9 Endo-PG	**
Protease FNP (Peptidase)	1,000 HUT	**
Cellulase (Trichoderma longibrachiatum)	375 CU	**
Cellulase (Aspergillus niger)	175 CU	**
Xylanase	175 XU	**
Hemicellulase	400 HCU	**
Alpha Galactosidase	50 GALU	**
Phytase	15 FTU	**
Protease Blend	33.56 mg	**
Protease	10,000 HUT	**
Protease (Acid Stable)	30 SAPU	**
Lipase Blend	20 mg	**
Lipase	750 FIP	**
Lipase	250 FIP	**
Lipase (Japan)	100 FIP	**
Lipase Fungal (Validase MH)	25 LU	**
AstraZyme™	35 mg	**
InnoSlim®	45 mg	**
Betaine HCl	10 mg	**
